Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 9, 2026

Net Power is an energy technology and project development company focused on delivering low-carbon gas power solutions. Founded in 2010, our mission is to transform natural gas into the lowest cost form of clean firm power. Historically, our sole business has been the development of a novel oxy-combustion power generation system (the "Oxy-Combustion Cycle") designed to produce reliable and affordable electricity from natural gas while inherently capturing CO2 and minimizing the production of air pollutants such as SOX, NOX, and other particulates.
