Business, in the company's words

opening of Item 1 of the 10-K received Mar 19, 2026

We are a clinical-stage biopharmaceutical company discovering and developing precision medicines utilizing our proprietary Generative Phosphoproteomics Acrivon Predictive Precision Proteomics, or AP3, platform designed to quantify compound-specific, drug-regulated pathway activity levels inside the intact cell in an unbiased manner, yielding terabytes of proprietary data and delivering rapid, actionable insights. Our company name, Acrivon, is derived from Greek for "accurate" or "precise". We chose it to embody how our AP3 platform can, among other highly actionable discovery and development applications, accurately match our therapies with patients who will benefit.
