Business, in the company's words

opening of Item 1 of the 10-K received Mar 19, 2026

We are a United States based biopharmaceutical company engaging in the development, manufacturing, and commercialization of pharmaceutical products for the treatment of dermatological conditions with a focus on photodynamic therapy ("PDT"). The Company's products, which include Ameluz as well as the BF-RhodoLED and RhodoLED XL lamp series (together, the "RhodoLED Lamps"), are used for the treatment of actinic keratosis ("AK"), a common skin condition characterized by the growth of pre-cancerous lesions (or "AKs"). With our national commercial team, we generate revenue by selling our products directly to dermatology offices and groups.
