-SEED's Targeted Protein Degradation (TPD) Platform and Pipeline," will cause our controlling power over such subsidiary or investee to diminish and limit our ability to benefit from potential growth of its business. General market conditions and the Complete Response Letter received from the FDA have caused and may in the future continue to cause difficulties for us to seek financing from the capital markets. We may not be able to complete financing on reasonable terms or at all. If we are unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success will be materially and adversely affected.
