Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 12, 2026

Our mission is to detect cancer early, when it can be cured. We are an innovative commercial-stage healthcare company focused on shifting the paradigm in early cancer detection at population scale. We believe screening individuals for many types of cancer with a single test represents a significant opportunity to reduce the global burden of cancer. Our multi-cancer early detection test ("Galleri") can screen for many types of cancer, accurately predicting the specific organ or tissue type where the cancer signal originated (the "Cancer Signal of Origin", or "CSO"), with high positive predictive values ("PPV") and low false positive rates, all from a simple blood draw.
