Business, in the company's words

opening of Item 1 of the 10-K received Mar 30, 2026

We are a clinical-stage biopharmaceutical company developing pelareorep, a well-tolerated intravenously delivered immunotherapeutic agent that selectively replicates in RAS-mutated tumors and activates the innate and adaptive immune systems and weakens tumor defense mechanisms. This improves the ability of the immune system to fight cancer, making tumors more susceptible to a broad range of oncology treatments. Pelareorep is a proprietary isolate of reovirus, a naturally occurring, non-pathogenic double-stranded RNA ("dsRNA") virus commonly found in environmental waters. Pelareorep has shown promising results in changing the tumor microenvironment ("TME").
