Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 31, 2026

We are a phase 3 clinical stage immuno-oncology company with three distinct technologies focused on the development of novel therapeutics designed to overcome primary and acquired resistance to cancer immunotherapies. Our proprietary Immune FxTM technology platform, or IFx, is an innate immune agonist technology designed to "trick" the body's immune system to attack tumor cells by making tumor cells look like bacteria. Our lead product candidate, IFx2.0, is an innate immune agonist designed to overcome primary resistance to checkpoint inhibitors.
