Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 12, 2026

Volato is an aviation technology company that connects travelers to private, on-demand flight access and develops proprietary software platforms for enterprise and operational applications. Historically, we generated revenue through our aircraft ownership program, a focused commercial strategy that included deposit products, charter flights, and aircraft management services. Our aviation experience led to the development of proprietary software products and applications, including "Mission Control," "Vaunt," and "Parslee." Mission Control is an internal operations platform that supports the management of fractional ownership, charter, and related aviation services.
