Gevo, Inc. (Nasdaq: GEVO), a Delaware corporation founded in 2005, is a growth-oriented company that focuses on hard to decarbonize market sectors such as jet fuel, certain specialty fuels, on-road fuels, chemicals and materials, and certain products for the food chain such as protein and feeds made as co-products from our processes. Each of the market areas that Gevo focuses on has the common need for carbon-based products and is not conducive to full electrification or hydrogen. We produce and sell competitively priced, renewable, drop-in products for these sectors, and generate carbon abatement value through our plant design and business systems.
