Business, in the company's words

opening of Item 1 of the 10-K received Feb 13, 2026

," the profitability of our fixed price and fixed unit price contracts can be adversely affected by a number of factors, including, among others, inflation, tariffs, inefficiency and incorrect estimates or assumptions, that can cause our actual costs to materially exceed the costs estimated at the time of our original bid. This could result in reduced profits or a loss for that project and there could be a material adverse impact to our business, results of operations and financial condition.
