Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 30, 2026

We are a dermatologist-founded, late clinical-stage biopharmaceutical company, or the "Company," "we," "us," or "our", focused on developing innovative therapeutics to address pervasive treatment challenges in highly prevalent aesthetic and dermatological conditions. Our initial focus is developing better treatments for PHL, a condition affecting approximately 50 million men and 30 million women in the United States. Current PHL treatment options are limited and therefore are consistently plagued with high rates of treatment failure, patient dissatisfaction and treatment discontinuation.
