Neonode provides software solutions for machine perception that feature advanced machine learning algorithms to detect and track persons and objects in video streams from cameras and other types of imagers. We base our machine perception solutions on our MultiSensing® technology platform. We market and sell our solutions to customers mainly in the automotive market. However, our solution can also be used in many other markets, and we plan to expand our solutions into new markets in the future. Neonode also provides advanced optical sensing solutions for touch, contactless touch, and gesture sensing using our zForce® technology platform.
