Business, in the company's words

opening of Item 1 of the 10-K received Feb 27, 2026

We are the leader in silicon and software intellectual property ("IP") enabling Physical AI - the intelligence embedded directly into billions of devices that connect, sense, and infer data in the real world. Physical AI represents the natural evolution of Edge AI. While traditional Edge AI focuses on local inference on devices, Physical AI unifies connectivity, sensing, and inference into a cohesive technology fabric. This integrated approach allows devices not only to process information at the edge but also to understand their physical surroundings, communicate seamlessly, and interact intelligently with both the environment and the cloud.
