Business, in the company's words

opening of Item 1 of the 10-K received Mar 31, 2026

Edible Garden is a controlled environment agriculture ("CEA") farming company. We use traditional agricultural growing techniques together with technology to grow fresh, organic food sustainably and safely while improving traceability. We operate glass, hydroponic, and vertical greenhouse structures that enable us to grow organic herbs consistently year-round while using less land, less energy, and less water than conventional agriculture. In our hydroponic greenhouse, we grow plants without soil. Instead of planting one row of plants in the ground, by using a vertical growing system, we can grow many towers of plants in the same area by planting up instead of planting across.
