Business, in the company's words

opening of Item 1 of the 10-K received Feb 18, 2026

Regulations may be especially strict in the markets of those countries in which we are considered to hold a significant market position. We have been, in the past, and may be in the future, subject to allegations and complaints by our competitors and other third parties regarding our competitive behavior as a significant market operator. When we acquire additional communications companies, these acquisitions may require the approval of governmental authorities, which can block, impose conditions on, or delay an acquisition, thus hampering our opportunities for growth.
