Business, in the company's words

opening of Item 1 of the 10-K received May 28, 2026

Originally formed in September 2010, we are a Delaware master limited partnership and our business is currently organized into the following three segments: ?Our Water Solutions segment transports, treats, recycles and disposes of produced and flowback water generated from crude oil and natural gas production. We also sell produced water for reuse and recycle to our producer customers to be used in their crude oil exploration and production activities. As part of processing water, we aggregate and sell recovered crude oil, also known as skim oil. We also dispose of solids such as tank bottoms, drilling fluids and drilling muds and perform other ancillary services such as truck washouts.
