Business, in the company's words

opening of Item 1 of the 10-K received Mar 16, 2026

We provide digital infrastructure and communications services in the United States ("US"), primarily in the western US, and Alaska, and internationally, including Bermuda and the Caribbean region. Since our founding in 1987, we have concentrated on smaller, often rural or remote markets with strong and growing demand for connectivity. We have invested in these markets to build durable network assets and establish a defensible market position. In select markets, we also serve carrier customers by leveraging our network assets to provide communications services.
