Business, in the company's words

opening of Item 1 of the 10-K received Mar 6, 2026

We are a late-stage clinical oncology company focused on keeping cancer patients alive and helping them thrive. We are developing and seeking to commercialize an entirely new category of anti-cancer medicines, Deep Cyclic Inhibitors, which we believe have the potential to be more effective and better tolerated targeted therapies. Deep Cyclic Inhibition® ("DCI") is a novel mechanism that aims to deprive tumor cells of the sustained proliferative signaling required for rapid growth, while sparing healthy cells through a cadenced, normalized level of signaling.
