Business, in the company's words

opening of Item 1 of the 10-K received Mar 5, 2026

We are a clinical-stage biopharmaceutical company that is focused on advancing innovative medicines that treat cancer patients that do not respond to, or that have disease progression on, current therapies, through the use of targeted therapies, including antibody-drug conjugates ("ADCs"). An ADC consists of a monoclonal antibody conjugated to a cytotoxic drug via a chemical linker. We focus on advancing therapies that leverage our core strengths in understanding biological pathways and biomarkers, the interactions of cells, including in the tumor microenvironment, and the role each interaction plays in a biologic response.
