Business, in the company's words

opening of Item 1 of the 10-K received Sep 3, 2026

We are the cybersecurity platform for the AI era. We empower our customers with the cybersecurity solutions necessary to protect their enterprises, drive growth and outpace competitors where success depends on securely adopting the technologies required to operate and compete effectively in an AI world. We were founded in 2007, based on a vision that, with the broad adoption of SaaS applications, the internet would become the new corporate network, the cloud would become the new data center and perimeter-based security would fail to protect users, applications and data.
