Business, in the company's words

opening of Item 1 of the 10-K received Mar 31, 2026

preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates, assumptions, and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. considers an accounting estimate to be critical if it requires significant judgment, is inherently subjective, and if changes in the estimate could have a material impact on the Company's financial condition or results of operations.
