Business, in the company's words

opening of Item 1 of the 10-K received Mar 10, 2026

We are a clinical-stage biotechnology company focused on developing natural killer (NK) cell-based therapies for patients suffering from devastating autoimmune diseases and cancers. Our product candidates are derived from donor cells (allogeneic) rather than a patient's own cells (autologous) and are pre-manufactured and stored frozen and ready to ship to a patient's treatment location, making them what we believe to be "off-the-shelf."
